Professional Summary

Detail-oriented Data Analyst with foundation in Power BI, SQL, Python, and Excel. Skilled in data visualization to uncover insights and support data-driven decisions. Eager to apply analytical skills and grow in a dynamic, hands-on environment.

Skills Summary

- **Programming Languages:** Python (Pandas, NumPy, Matplotlib, Data Analysis), SQL (Joins, Subqueries, Window Functions).
- **Data Analysis & Visualization Tools:** Power BI (Dashboarding, Power Query, DAX, Data Modeling), Excel (Pivot Tables, VLOOKUP, Data Cleaning, Data visualization), Tableau (Data Visualization, Reporting), ETL, Data Transformation & Cleaning.
- **Soft Skills:** Problem-Solving & Critical Thinking, Communication & Presentation, Team Collaboration, Time Management, Attention to details, Adaptability, Team Work, Strong Work Ethics, Learning Agility.

Education

• Bachelor of Technology (C.S.E.)	Meerut Institute of Engineering and Technology , Meerut	2021-2025
• Intermediate	C.P.S. Public School, Mohiuddinpur	2020-2021
• High School	C.P.S. Public School, Mohiuddinpur	2018-2019

Projects

- **Amazon Sales Analysis using Power BI** | Power BI, DAX, SQL, Data Modelling, Data Visualization
 - Analyzed Amazon sales data to uncover trends in revenue, customer demographics, and product performance.
 - Designed interactive Power BI dashboards for real-time insights into sales patterns.
 - Used DAX functions and data modeling to enhance report accuracy and usability. [LINK](#)
- **Sugarcane Production Analysis** | Python, Pandas, Matplotlib, Regression Analysis
 - Explored agricultural data to identify patterns in sugarcane production using Python.
 - Performed data analysis in Jupyter Notebook to extract insights and trends.
 - Visualized key findings using Matplotlib and Seaborn for better interpretation. [LINK](#)
- **Music Store Analysis** | SQL, Music Analysis, Data Cleaning, Data analysis
 - Analyzed music store sales data using SQL to identify top-selling artists, genres, and revenue trends.
 - Performed customer segmentation to understand purchase behavior and optimize marketing strategies.
 - Optimized inventory management by tracking stock levels and store performance insights. [LINK](#)
- **Black Friday Sales Analysis** | Python, Pandas, NumPy, Machine Learning, Data Analysis
 - Performed Exploratory Data Analysis (EDA) on Black Friday sales data.
 - Used data visualization to uncover customer purchasing patterns.
 - Built predictive models to optimize marketing strategies. [LINK](#)

Training and Certifications

- **AWS Cloud Practitioner Certificate** July 2024
 - Gained a strong understanding of core AWS services, architecture, and deployment models.
 - Learned cloud security principles, billing, pricing models, and cost optimization strategies.
 - Demonstrated expertise in AWS global infrastructure and cloud computing concepts. [LINK](#)
- **Data Analytics Course – ICT Academy & Infosys** Aug 2024 - Sep 2024
 - Gained hands-on experience in data cleaning, statistical analysis, and SQL querying. Built interactive Power BI dashboards.
 - Participated in Infosys' CSR initiative, contributing to skill development and technology awareness programs.
 - Engaged with communities to promote digital literacy and data-driven decision-making.
- **Virtual Internship – Artificial Intelligence & Machine Learning (EduSkills)** Jul 2024 - Sep 2024
 - Worked with real-world datasets to perform predictive analytics and data preprocessing.
 - Explored AI-driven solutions using cognitive services and automated ML.
 - Gained hands-on experience in building and deploying machine learning models.
